Re: L.E. Carpenter Superfund Site

The New Jersey Department of Environmental Protection (Department) and EPA have reviewed the MW19/Hot Spot 1 Well Installation Work Plan letter dated February 13, 2001. The letter adequately addressed all the previous comments; therefore, the work plan is approved. Please notify the Department a minimum of two weeks prior to the commencement of the well installations.

Please feel free to contact me at (609) 633-7261 if you have any questions.

Sincerely,
